May 17th, 1933

Dear Editor-in-Chief!

I am honored to present you with my new book, *Atrocity Propaganda Is Based on Lies—Say the Jews of Germany Themselves*: as a foreigner who has enjoyed German hospitality for years, I have decided to counter the malicious slanders circulating abroad.
I am firmly convinced that this book by a foreigner—in which German Jews, specifically Jewish organizations, prominent figures, and newspapers, protest forcefully against the propaganda of atrocities—will be regarded abroad as an impartial testimony that leaves no room for doubt.

The enclosed volume contains the text in German, English, and French; another volume will feature the text in German, Dutch, and Swedish, and a third in German, Polish, and Czech; despite its high-quality production, the price per volume is only RM 2.50 plus postage.
I would be most grateful if you would see fit to bring this book to the attention of your esteemed readers, and I would also be very grateful if you could send me a few review copies.
I would also like to note that my writings, which have always been directed against communism, have very often been discussed in editorials in the German press.

With the utmost respect,
Jakow Trachtenberg
